Economically Priced
Premium Soft Tri-Fold
Tonneau Cover

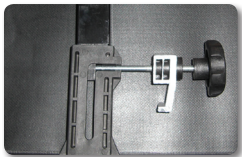

Saves Fuel

The TruXmart Tri-Fold can improve the mileage of your truck by up to 10%!

Using simple mileage calculations we've determined that the average user of the TruXmart Tri-Fold can save up to \$500 in fuel per year (depending on the amount driven yearly). The TruXmart Tri-Fold will pay for itself in fuel savings! And keep saving you money at the pump yearly!

Aluminum Front Clamps

The first Tri-Fold truck tonneau cover with super strong aluminum front clamps!

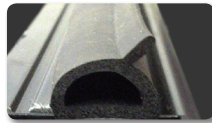

The front clamps are the back bone of any soft tri-folding tonneau cover. The TruXmart Tri-Fold broke the mold and makes each TruXmart Tri-Fold with aircraft grade extruded aluminum front clamps to make sure that our tonneau cover only comes off when you want it too.

Adjustable Back "EZ" Clamp

The TruXmart Tri-Fold rear "cam lock" clamp locks and unlocks in seconds, requiring no effort. The clamp is on a threaded rod allowing you to adjust the tension as you wish for a perfect seal. The clamp is constructed with heavy duty injected plastic.

Rubber "Q" Super Seal

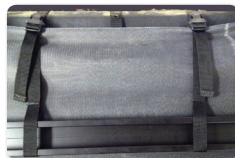

The TruXmart Tri-Fold uses rubber "Q" seals on the bottom of our tonneau for superior truck bed protection against entry of water, dust, and dirt.

24 oz Dual Coated Vinyl Tarp

Our durable 240z vinyl coated tarp means the TruXmart Tri-Fold will bend around objects before tearing. Making it one of the most robust tonneau covers on the market today!

Front Hold Down Straps & Clasps

For added versatility and safety, the TruXmart Tri-Fold has straps and clasps to be used on the final fold, allowing you to drive safely with the TruXmart Tri Fold in its folded up position.

One Person Install (Less Than 5 Min.)

Installing the TruXmart Tri-Fold requires no mechanical skills, drilling, or modification of your truck. Simply remove your TruXmart Tri-Fold from the box. Lay it on the front of your bed so it is square and even on both sides. Pull down the Aluminum front clamps from their stowed away position, place them under your bed rail or rail bracket and tighten the wing nuts one turn past snug and your done!

Versitile Usage Of Your Truck

Fully Closed

One Panel Folded

Fully Opened

Easy Removal For Full Bed Usage

Simple fold your TruXmart Tri-Fold up, clasp it together using the hold down straps. Then loosen the aluminum front clamps until they are free of the bed rails or brackets. Then simply lift your TruXmart Tri Fold off and stow it away for later usage!
